The \$82,000-valued record-setting top-seller of the 2005 Frozen Gold Sale and one whale of a foundation cow, 42FJ is back with a very valuable selection of herd-building embryos to continue her legacy of widespread success. When it comes to foundation Maine maternal, you can do no better. This one-of-a-kind female continues to set the pace for quality and far-reaching success for her owners and those fortunate enough to access her proven power. Since topping our fourth sale 42FJ has been hard at work building a great set of females for the Power Up Syndicate as well as herd sires for their customers. She is the dam of the exciting and proven sire, Northern Ice, as well as the Lot 15 feature in this sale. She surpassed the \$150,000 mark in sales long ago and her deep Rowe cow family has accounted for many multiples of that number in herd sire, female, and embryo sales. Browse past sale results - from this and other leading events and you'll find the potent influence on this family in several pedigrees of your favorite cattle like the popular bull, PLG House Call, the second top-seller of the 2009 OMAA Sale and three of his impressive relatives that are features of the 2010 edition of that sale. This line of cattle breeds as true as any we can offer. They are perfectly right for the times with their consistently moderate frame score, great hair and body mass, and THF/PHAF lineage.

The young daughters of 42FJ are already carving out their own spots in the record books with strong early calf crops and earning power. These embryo packages are rock-solid opportunities to create your own Dreamgirls or herd sires to join the ranks of favorites like Northern Ice, Currency, Hardline, Broadband, North Face, and North Point. Experience the best in Maine maternal from 42FJ!

Quality begets quality, and 42FJ just keeps stamping out great cattle; and this is her best daughter yet! Dream Girl 42TJ is the dreamy combination of beauty and power that we introduced to you a year ago when she produced a top-selling and successful flush of our eighth offering. She had just delivered her first calf, PUPS Wonder Woman by Tyson, that later sold for \$5,900 to McConnell Creek Farm, OH, and we're proud to offer these first embryo packages again this year. This young beauty is just what you would expect from the top-selling and everlasting 42FJ; perfectly versatile with optimum power and structural integrity and a hairy, THF/PHAF pedigree that you can mate to anything in the tank and expect success. Dream Girl 42TJ was produced from the sale flush as the now-proven sire, Northern Ice, whose first calves have arrived easily and with strong reviews. And, she is full sister to OMAA Sale features like PUPS North Face and PUPS North Point as well as three other favorite young females in the Power Up program. Furthermore, she is a maternal sister to LGC Perfect Lady 1, the young donor dam that produced, House Call, the featured and top-selling Lot 1A of the 2009 OMAA Sale to Meyer and Yates. There is one simple reason that this family of cattle has stood the test of time and produced progeny sales pushing the \$500,000 mark - consistent success. Show 'em, sell 'em, or keep 'em - you won't go wrong here!
